 - Information
 - Updates
 - Presenter: Cheri Soileau, LCMPO Director

3. NEW BUSINESS

- A. Advance Program – Air Quality Taskforce of Southwest Louisiana (See Attachment in Email Invitation)**
 - Information
 - 2018 Update of the Action Plan.
 - See pages 1, 5, 9, 10, 11, 13, 14, 20, 21 for revised pages.
 - In order to remain an Advance Program community, staff is required to annually update a document showcasing changes in emission levels and actions that our committee and partners have taken to mitigate ozone and particulate matter pollution.
 - Presenter: Walter Council, Transportation Planner

B. Travel Efficiency Assessment Model (TEAM) (See Attachment in Email Invitation)

- Information
- Final Update.
- See pages 1 – 2 for background and pages 13 -14 for final results.
- The Travel Demand Management; Transit Improvement; Parking Pricing; and Land Use – Neighborhood strategies modeled produced Vehicle Miles Traveled (VMT) reductions at the lower or even below the range of other case study results.
- However, this study provided opportunity to acknowledge weaknesses in strategies and consider in future endeavors how to potentially intensify methods for emissions reductions.
- Presenter: Walter Council, Transportation Planner

C. Transportation for America Performance Management Workshop (See Attachment in Email Invitation)

- Information
- Final Update.
- See pages 1 – 19 for relevant Lake Charles recommendations.
- In Spring 2019, TAC and TPC will prioritize a list of transportation projects for 2045 MTP, long-range transportation plan, encompassing the next 25 years, with the critiques and recommendations from the February 2018 workshop and attached document being valuable tools to massage into the existing process.
- Presenter: Walter Council, Transportation Planner

4. ADJOURNMENT
